

The IFR , page 56329 makes reference to flight schools that issue I-20 for either F-1 or M-1 students. However, the IFR makes no mention of the hundreds of schools that are approved under DOS regulations to issue DS-2019 forms. These forms are used for the J-1 exchange visitor program visa category. It would stand to reason that J-1 schools would also have to have secured TSA approval, as well.
